1. Industrial Pigeon Net
2. Mosquito Net
3. Bird Net Services
4. Residential Pigeon Netting
5. Safety Net Services
6. Football Ground Net
7. Garden Net
8. Green House Net

1. Industrial Pigeon Net

Birds are known to be one of the most disastrous pests for Industries, Warehouses, and Factories. Bird droppings and diseases caused by them are one of the main reasons for contamination of the finished products and destruction of storage areas and costly equipment.

Industrial Bird netting is a permanent, economical and most effective method for birds / pigeon prevention. We at Nets n Screens have the latest technologies as well as fully trained professional staff for installations.

2. Mosquito Net

Vaishnavi Pigeon Net Services offer a range of most efficient and technically advanced insect screens installations to block all the mosquitoes and pests but let the fresh air in to let you enjoy a healthy and harm-free living environment.

Insect Netting provides complete protection while adding elegance to your homes and offices. Available in variety of colors, designs and operating systems our products are known for their durability and style at the same time they are economical.

3. Bird Net Services

Business of pigeon spikes, bird proofing, bird problems and its control is fast changing worldwide and increasing becoming environmentally friendly at the same time cost effective. We at Nets n Screens are deeply committed to provide solutions which are permanent, latest and economical.

Bird Spike is a device consisting of long needle like rods. They are made of either PVC or pure Stainless steel. Bird spikes are very effective mechanism to deter pigeons and other birds from perching on commercial buildings, factories, railings, building ledges etc.

4. Residential Pigeon Netting

While birds fluttering and chirping outside the window is pleasant to the senses, when they perch on the windows and crevices on the buildings, the acidic bird droppings and the nests they build are not only disturbing, but also unhygienic. The woes are more complex when the birds end up inside your bedrooms, balcony and kitchen.

Nowadays, problems caused by pigeons and other birds are major irritants to residents of almost all major housing and office complexes.

This is not just an irritant but also a health hazard. Birds get easy access to get good nesting areas on the windows, pipes, parapets, inside the duct and behind AC units. Many pigeons die in the ducts causing large presence of maggots & other insects in the affected area. They often make nests and rapidly reproduce causing major health risks. Three human diseases are known to be associated with pigeon droppings: Histoplasmosis, Cryptococcosis, and Psittacosis.

5. Safety Net Services

Consider our name, if seeking fast, efficient, reliable and on-time **Safety Net Installation Services** in Maharashtra, India. Safety nets are installed below a high-level work area. We make use of high-class safety net that absorbs the impact of the fall and provides a soft landing. These services are rendered under the vigilance of trained professionals.
